## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

1. Claims 54-56 and 67-69 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The term Medium is described in the specification in paragraphs 119 and 1148 in such a way that it could include transmission (i.e. non-physical, and hence non-statutory) embodiments.
2. *The specification should be amended to clearly indicate that the media are physical products.*

### ***Allowable Subject Matter***

3. Claims 1-10, 13-34, 36-45, 51-53, 57-66, 70-72 are allowed for reasons presented in applicant's response.

### ***Response to Amendment***

4. Applicant's arguments filed December 26, 2007 have been fully considered but they are not persuasive.
5. Applicant cannot remove the rejection under 101, which is based on the definition of media presented in the specification without amending the specification to remove the non-statutory definition.

### ***Conclusion***

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

10. The central fax phone number for the Office is 571-273-8300.

Most facsimile-transmitted patent application related correspondence is required to be sent to the Central FAX Number.
